Authorized Representative of Insurance Agency

The OKLAHOMA COMBINED PESTICIDE LAW & RULES, Section 3-82 G. states in part:

- G. 1. The Board shall not issue a commercial applicator's license until the applicant has furnished evidence of an insurance policy or certificate by an insurer or broker authorized to do business in this state insuring the commercial applicator and any agents against liability resulting from the operations of the commercial applicator. The insurance shall not be applied to damage or injury to agricultural crops, plants, or land being worked upon by the commercial applicator.
2. The amount of liability shall not be less than that set by the Board for each property damage arising out of actual use of any pesticide. The liability shall be maintained at not less than that sum at all times during the licensing period. The Board shall be notified fifteen (15) days prior to any reduction in liability.
3. If the furnished liability becomes unsatisfactory, the applicant shall immediately execute new liability upon notice from the Board. If new liability is not immediately obtained, the Board shall, upon notice, cancel the license. It shall be unlawful for the person to engage in the business of applying pesticides until the liability is brought into compliance and the license reinstated.

The allied rules and regulations, Part 5, PREREQUISITES FOR LICENSING, states in part:

35:30-17-10. Application Insurance Requirements

(a) The Board shall not issue an applicator's license until the applicant or agent has furnished evidence of financial responsibility. A liability insurance policy or certification shall protect persons who may suffer legal damages as a result of the pesticide operations of the applicant. The policy need not apply to damages or injury to agricultural crops, plants, or land being worked on by the applicant.

(b) With the exception of aerial pesticide applicators, pesticide applicators obtaining liability insurance pursuant to this section shall file a certificate of insurance with the Department, verifying insurance in an amount of not less than \$50,000 bodily injury, \$100,000 bodily injury per occurrence, and \$50,000 property damage. The provisions of this section with regard to "per occurrence" are specifically intended to be interpreted per occurrence, rather than per claimant. The insurance obtained pursuant to this section shall insure against liability for damage, loss, or injury, including chemical drift or trespass, suffered by any person or persons, resulting from the application of any pesticide. A current certificate of insurance must be filed with each initial and subsequent renewal registration.

(c) Aerial pesticide applicators obtaining liability insurance pursuant to this section shall file a certificate of insurance with the Department, verifying insurance in an amount of not less than \$100,000 bodily injury, \$300,000 bodily injury per occurrence, and \$100,000 property damage. The provisions of this section with regard to "per occurrence" are specifically intended to be interpreted per occurrence, rather than per claimant. The insurance obtained pursuant to this section shall insure against liability for damage, loss, or injury, including chemical drift or trespass, suffered by any person or persons, resulting from the application of any pesticide. A current certificate of insurance must be filed with each initial and subsequent renewal registration.

(d) Liability insurance shall be maintained at all times during the licensed period. The Board shall be notified by the insurer fifteen (15) days prior to any applicant's request for a reduction or cancellation of the liability insurance. The total and the aggregate of the insurer for all claims shall be limited to the face amount of the liability insurance policy. The Board may accept a liability insurance policy with a deductible clause in an amount not exceeding \$5,000 for all applicators. If the applicant has not satisfied the requirement of the deductible amount in any prior legal claim, the deductible clause shall not be accepted by the Board unless the applicant has furnished the Board with additional liability insurance which satisfies the amount of the deductible.

(e) If the furnished liability insurance becomes unsatisfactory, the applicant shall upon notice immediately provide new liability insurance. Upon failure to do so, the Board shall cancel the license and give notice. It shall be unlawful to engage in the business of applying pesticides until the insurance is brought into compliance and the license is reinstated by the Board.

(f) Application of a pesticide specifically excluded on the insurance policy shall be considered working without a license.
